Guidance for Soft Launch Period

Carolina Complete Health encourages providers to submit at least some visits to HHAX every week during soft launch. This ensures we can:

- Test recent HHAX configuration updates
- Identify any HHAX configuration that may need further review
- Identify if your 3rd party EVV vendor configurations are working as intended

You may still bill CCH directly during soft launch if your visits do not flow successfully through HHAX.

New hard launch date TBD
