

Zepbound® Kwikpen® Now Available

Zepbound® Kwikpen® multi-dose pen delivers the same active ingredient and therapeutic effect as the Zepbound® Prefilled Pen. The Zepbound® Kwikpen® provides a more cost-effective alternative helping to maximize access to therapy for a greater number of Medicaid members by helping to optimize resources.

Notes and Considerations:

- Any Zepbound® product requires prior authorization.
- Patient Education may be needed on proper use of the Kwikpen®.
- Zepbound® Kwikpen® requires pen needles for administration.
 - A prescription for pen needles needs to be sent with Kwikpen® prescriptions.
 - Pen needles carry no additional cost to the members.
- Members with an active prior authorization for the Zepbound® Prefill Pen can also use this same prior authorization to obtain the Zepbound® Kwikpen®. They just need a new prescription with pen needles!

Available Strengths and NDCs:

- Zepbound® KwikPen® 2.5 mg/dose, NDC: 00002-3566
- Zepbound® KwikPen® 5 mg/dose, NDC: 00002-3555
